

Getting the most from your fertiliser and pesticide applications

Join Welsh Water and industry specialists to discover how different grassland management interventions can influence the environmental and economic performance of your farm.

Workshops from the National Sprayer Testing Scheme (NSTS) and the Voluntary Initiative (VI) will cover:

- Environmental requirements and best practice
- Economic benefits of nutrient management
- Effective management of grassland weeds
- Spreader and sprayer set up and testing
- BASIS/NRoSO points available

Tuesday 23rd April:
Anglesey
Showground
Pavilion,
Gwalchmai,
Anglesey,
LL65 4RW

10:00-14:00

*To register or for more information, contact:
watersource@dwrcymru.com / 07979 117670*

Light refreshments will be provided therefore booking a place is essential.

Manteisio i'r eithaf ar eich defnydd o wrtaith a phlaladdwyr

Ymunwch â Dŵr Cymru ac arbenigwyr y diwydiant i ddarganfod sut gall addasiadau i reolaeth eich glaswelltir ddylanwadu ar berfformiad amgylcheddol ac economaidd eich fferm.

Bydd gweithdai gan y National Sprayer Testing Scheme (NSTS) a'r Voluntary Initiative (VI) yn trafod:

- Gofynion amgylcheddol ac arferion gorau
- Y manteision economaidd o reoli maetholion
- Rheoli chwyn yn effeithiol mewn glaswelltir
- Gosod a phrofi gwasgarwr a chwistrellwr
- Pwyntiau BASIS/NRoSO ar gael

Dydd Mawrth
23ain o Ebrill:
Pafiliwn Sioe Môn,
